

## MINGO COUNTY AGAIN SCENE OF DISORDER

### ONE MAN DIES AS GUERRILLA WARFARE RAGES IN MOUNTAINS

Four Towns Are Targets of Fusillade of Bullets From the Mountains—State Prohibition Officer Killed—Governor Asks for Federal Troops—State Police on the Job

(By The Associated Press)  
WILLIAMSON, West Virginia, May 12.—Guerrilla warfare with all odds apparently favoring the forces opposing the state, was being waged tonight in the mountains of the strike-torn Mingo county coal field.

Beginning soon after dawn this morning at Merrimac, four miles up the Tug River, a fusillade of shots was poured from the mountain side successively into Merrimac, Rawl, Sprigg and Matewan, West Virginia.

All available state police and deputy sheriffs centered in Williamson were rushed to the scene by train and automobile, but according to reports they had been unable at a late hour to check the shooting.

Harry C. Staton, a state prohibition officer and merchant at Sprigg, was killed by a bullet from the mountains.

Tonight about 20 state police were reported to be working their way over the mountains between Merrimac and Rawl, seeking to get above and outflank their hidden foes.

Today's outbreak, the worst since the Mattewan battle of last May 19, in which ten persons were killed, had all the appearance of a pre-arranged attack.

**Firing From Mountains**  
The towns visited with the hail of lead are all within seven miles of each other, and lie in a narrow valley on the banks of the Tug river which here separates West Virginia from Kentucky. The firing today and tonight came from the mountains on both sides of the river, according to the state police.

Terror reigned in the towns in the zone of fire as night fell and as learned the authorities had failed to apprehend any of the attacking force.

The state police were virtually helpless during the day, as the attacking forces in the mountains were completely screened by foliage and boulders.

Sergeant Peterson, of the state police, who led a squad of men to fight this afternoon, told of the plight in which several hundred passengers on a noon day train found themselves when they reached the battle scene.

"Bullets were peppering down from the mountain when the train got in," he said, "women and children screamed and cried in terror, while virtually every passenger on the train fell prone to the floor of the coaches for protection. I don't know whether any were aimed at the train. None of the passengers were injured."

**Asks For Federal Troops**

Charleston, W. Va., May 12.—Gov. Morgan tonight responded to a request of Mingo county officials and asked the war department for federal troops to restore order in the county.

Indianapolis, May 12.—Federal troops at Camp Sherman, Ohio, are being held in readiness to depart for Mingo county, West Virginia, it was announced tonight at fifth army headquarters at Fort Benjamin Harrison, Ind. Major General George B. Read, fifth army corps commander, was in conference with officials of the war department, it was said, regarding the request of Governor Morgan of West Virginia for troops to control the disturbances.

### MANY COMPANIES FIXED PRICES ON BUILDING MATERIALS

Sheet and Metal Contractors  
and Iron Workers  
Were Guilty

NEW YORK, May 12.—Evidence showing that sheet metal contractors, architectural iron workers and pipe supply companies followed the practices of associations in fixing prices for building materials, was introduced today before the Lockwood committee investigating housing conditions.

Associations of all three crafts, it was developed, prohibited members from assuming contracts previously let to other members and prohibited members from completing contracts dropped because of differences between builders and members.

One of the most flagrant combinations yet uncovered by the investigations was the roofers' and sheet metal workers' association, Committee Counsel Undermeyer says. Testimony of Herman Weinberger, secretary of the association's "Business men's club" showed the counsel declared that the reason for the association was for better prices.

### WOMAN CHARGED WITH POISONING FOUR HUSBANDS

Tried to Get Fifth to  
take Out \$10,000  
Life Insurance

(By The Associated Press)  
Honolulu, May 12.—Mrs. Paul Vincent Southard, also known as Mrs. Lydia Meyer, was held by police today on orders from Los Angeles in connection with the deaths of four of her husbands, a brother-in-law and a child of one of the men she married.

Paul Southard, whom she married in Los Angeles last November, told the police she tried to get him to take out \$10,000 worth of life insurance. Southard is a petty officer on the U. S. S. Monterey, stationed at Pearl Harbor, Hawaii.

Insurance, of which she was the beneficiary, was carried on the lives of all five men, Mrs. Southard, according to the police, has agreed to return without extradition papers being prepared.

Two Falls, Idaho, May 12.—Prosecuting Attorney Stephan of Two Falls county said today that an investigation is being made of the matrimonial record of Mrs. Paul V. Southard, known here as Lydia Meyer who is held by Honolulu officials for probable extradition to this country to be questioned regarding the deaths of four of her husbands and one infant child.

Insurance in which Mrs. Southard was the beneficiary was carried on the lives of all five men, Mr. Stephan said, of which the woman is said to have collected at least \$9,500.

The prosecutor said he had evidence to establish that poison caused the deaths of R. C. Dooley, W. G. McHaffie, H. C. Lewis and Edward F. Meyer, respectively her first, second, third and fourth husbands, and Edward Dooley, brother of her first husband. Stephan said the bodies of the men had been exhumed and the contents of their stomachs analyzed by the state chemists of Idaho and Utah and revealed traces of poison.

The woman's arrest on a charge of murdering Meyer, he added, had been made on the strength of the chemist's report.

**Gives Matrimonial History**  
Mrs. Southard's matrimonial history and the dates of her husbands' deaths as given out by the authorities follow: Married Robert C. Dooley, an Idaho farmer at Two Falls, March 17, 1912; died in Two Falls hospital, October 12, 1915, typhoid being assigned as the cause.

Married Wm. G. McHaffie, a waiter, at Two Falls, in June, 1917; died at Hardin, Montana, October 22, 1918; death reported to have been from influenza and diphtheria.

Married Harlan C. Lewis, auto mechanic of Billings, Mont., at Denver, Colo., March 10, 1919; died at Billings on July 6, 1919; cause of death reported as gastro enteritis.

Married Edward F. Meyer, former Blue Lakes ranch, Twin Falls, Idaho, at Pocatello, Idaho, on Aug. 10, 1920, died at Twin Falls, September 7, 1920; examination revealed trace of poisoning.

Edward Dooley died Aug. 9, 1915, after an illness of ten days and the insurance was paid to the surviving Dooley and his wife. On October 1, 1915, Robert C. Dooley died and the insurance on his life was collected by Mrs. Dooley.

The Dooley baby lived to be three or four years old and its death was reported to have resulted from typhoid fever.

Mrs. Southard is 28 years old. An examination of the ranch house occupied by Meyer and his wife in this county is said to have revealed a quantity of poison such as is used for extermination of insect pests.

**WILL WRITE DEBS  
RECOMMENDATIONS**

Washington, May 12.—Attorney General Daugherty said today that he would write the recommendations to President Harding on the question of a pardon for Eugene V. Debs, socialist leader, serving a ten years' sentence in the Atlanta penitentiary for violation of the espionage laws. He said it would be some time before the recommendations would be completed.

**BAR NON-UNION LABOR  
FROM THE PORT AREA**

Buenos Aires, May 12.—The government under an agreement reached with representatives of the labor organizations will not permit non-union labor in the port area. Work in the major section of the port, which has been at a standstill for some time as a result of the boycott declared by the port workers, is expected to begin again Friday.

### Commence Fight to Kill Medicinal Beer

WASHINGTON, May 12.—Signs of the day when dry were butting to put John Barleycorn outside the pale of the law were reenacted today before the house judiciary committee, except that few friends of John's family appeared to protest against Chairman Volstead's plan to cut off, even for medicinal purposes, the heritage of beer.

Plenty of dry were on hand, and Dr. John P. Davin of New York, who pleaded for the use of beer for medicine, was roughly handled by Volstead who with some show of feeling challenged the physician's ability to "explain everything."

Outstanding in the testimony was the statement by Oliver T. Kemmer, counsel for the Anheuser-Busch company of St. Louis, that the firm's policy was "beer for all, or beer for none." He requested a congressional investigation of "favoritism and failure" in enforcement of the dry code and declared his firm stood four square for law enforcement, although opposed to prohibition.

Dry leaders said there were many leaks in the stocks of liquor and urged the committee to make the Volstead law air tight. Dr. Davin resented the move by Mr. Volstead to "dictate to physicians" what they shall prescribe and urged the committee to await consideration of the bill by the American Medical Association.

Several comments evidenced in the kind of diseases for which the witness said he would prescribe beer. Most of them, however, were said by the witness to yield slowly to curative treatments. Some were curable only in exceptional cases, he added.

Officials of the American Drug Manufacturers Association were before the committee to discuss the technical problems of the bill.

### ADVOCATES OF DISARMAMENT STOP NAVY BILL

Measure Carrying a  
Half Billion Dollars  
is Held Up

(By The Associated Press)

WASHINGTON, May 12.—The half billion dollar naval appropriation bill was taken up today in the senate only to encounter immediate opposition from the advocates of disarmament.

Leading of the senate naval affairs committee's amendments had scarcely more than been started when the first rumblings of the fight were heard. The first amendments slightly increasing the appropriations of the bill as passed by the house were accepted without discussion but when the amendment was reached to increase the sum available for recruiting by a million dollars, Senator Borah, leader of the disarmament forces, asked that it be passed over until the senate takes up the question of naval personnel.

This request was repeated time after time with the result that when the day's consideration ended, practically all major committee increases in the first half of the bill had been passed over. These included the appropriations for the Key West, Florida submarine base, Handing, Calif., naval hospital and Point Washington air station.

Senator Borah made a point of order against the provision authorizing the secretary of the navy to accept for naval purposes lands at Alameda, Los Angeles, Camp Kearney, Calif. and in King county, Washington.

The vice president overruled Senator Borah's contentions that the provision was general legislation and as such could not properly be included in the bill.

**Let Loose General Attack.**  
The disarmament forces, thru Senator King, Democrat, also let loose a general attack, the senator contending that continuation of the 1916 building program was a waste of money.

In the course of his three hour speech he described the bill as "war-like message from the United States to the world." He read a press dispatch saying that Great Britain, because of the American naval bill, had decided to contract immediately for the building of four 55,000 ton vessels of the super-hood type. Many ships now in service should be scrapped, Senator Kings asserted, adding that the newly created Pacific fleet was made up of obsolete "hulk."

Predicting there would be "a restless tide" in favor of world peace and a universal demand that the United States assume the leadership in such a movement, Senator King declared his decision of congress on naval appropriations would determine "whether the United States is to be a peaceful or an aggressive nation."

association at its meeting next month.

Mr. Volstead sought to establish why it was not possible for physicians to make medicinal beer by using cereal beverages. He asked Dr. Davin several questions along this line, none of which apparently were answered to the satisfaction of the chairman.

Witnesses attempted an explanation but were interrupted by Mr. Volstead who inquired as good for the invalid as beer with a kick.

"As that's the point," the witness replied, "Near beer is just like near-statesmanship. It can't accomplish any noticeable result."

"I don't think you know what you're talking about," returned the chairman, "nor do I think you insults will get far with this committee."

Several comments evidenced in the kind of diseases for which the witness said he would prescribe beer. Most of them, however, were said by the witness to yield slowly to curative treatments. Some were curable only in exceptional cases, he added.

Officials of the American Drug Manufacturers Association were before the committee to discuss the technical problems of the bill.

### UNITED STATES RECEIVES REPLY FROM HOLLAND

Says it Desires to See  
American Capital  
in Oil Fields

(By The Associated Press)

WASHINGTON, May 12.—The Netherlands legislation does not draw any distinction between Dutch and foreign capital in the exploitation of oil fields and that government desires to see American capital take part in such exploitation, the reply of the Netherlands government says to the American note to The Hague concerning concessions in the Djambi oil fields in the Dutch East Indies.

A summary of the reply was made public in a statement by the state department tonight, which, in addition to outlining the points made by the Dutch foreign office reviewed negotiations which had led to the formal exchange of notes.

Concerning the recent passage in the second chamber of the Netherlands parliament of an oil bill granting a concession to the Batavia company in the Djambi oil fields to the exclusion of Americans, The Netherlands reply says that when last January, William Phillips, the American minister, requested that American companies be permitted to participate in the Djambi concession, the law had already been drafted and the question had been settled. As for American capital participating in the exploitation of the oil fields, it says that such a question must be subject to the approval of the Dutch government.

**Would Make Contracts.**  
The reply adds, that there are rich oil fields in both Sumatra and Borneo and the minister of colonies would be glad to make contracts with other companies for their exploitation similar to that already made with the Batavia Company.

Reviewing discussions that preceded the recent exchange of notes the statement said that on June 30, 1920, The Netherlands legislation advised a commission to that Dutch controlled companies had not been excluded from leases on American public lands and representing that American citizens were treated on an equality with other citizens. The legislation set another note last September submitting additional information regarding The Netherlands East Indies mining laws.

To these the American government replied on November 12, 1920 that it did not appear that American citizens were given privileges in The Netherlands East Indies similar to those provided by the general lease law. At that time, the statement said, occasion was taken to refer to the fact that American companies filed unsuccessful applications for a share in the concessions.

The interest of the American government in the matter was also expressed to The Netherlands government (Continued on Page Four.)

### ROMIG LAST SAW MISSING GOLD IN BERGDOLL KITCHEN

Witness Gets Laughs  
from Members of  
Committee

(By The Associated Press)

WASHINGTON, May 12.—The trail for the buried gold of Grover Cleveland Bergdoll, draft dodger, which a house investigating committee is trying to pick up, ended today in the kitchen of the Bergdoll home at Philadelphia, where it was last seen by the man who had taken it there from the United States treasury.

James E. Romig, one time police magistrate of Philadelphia, who came to Washington with the slacker's mother in 1919 to get the gold, declared positively that he never set eyes on it after it had been dumped on the kitchen floor. Whether it had been placed in a bank on under ground he swore he could not say.

The serious sessions were upset frequently by Romig who is 70 years old and who while in a fine frame of mind despite the fact he is awaiting sentence on conviction of aiding Bergdoll to escape the draft.

He was called after former Judge John W. Westcott of New Jersey, had testified that there was not even a word of truth that he had been implicated as one of the Bergdoll lawyers.

John H. Sherburne, counsel for the committee, had not brought the Romig story up to the point where Bergdoll slipped after a bathroom and started for Germany when the hearing was adjourned. Considering the other charges against him, Romig declared he would not stand on his constitutional rights, but would answer any questions.

**Gets Laughs from Spectators**  
There was a roar from members and spectators when the witness was asked if Bergdoll had told him to see Harry Thaw and get Thaw's advice as to the best aliens to engage in proceedings involving his sanity.

"I did look around and ask people and they told me Thaw's doctors were all right," Romig answered.

Telling of his meeting with the treasury clerk Romig said he first saw a part of the gold certificates which were exchanged for gold at Mrs. Bergdoll's home. The mother accompanied him on the trip to Washington.

When Grover first started to tell him about the buried gold, Romig asserted he had refused to listen, declaring he did not want to hear anything about the gold question. Pressed for a more explicit reason, he said it was none of his business.

Asked about the stop over at the Bergdoll home, in the custody of two sergeants from whom the prisoner escaped, Romig said the bottles of gin, about which there has been much testimony, suddenly appeared in the pool room as if by magic. He denied he had taken them there, adding that he "could not have carried that far." But it was the first time, he declared, that he had ever seen things to drink in the house.

### MODERN SCHOOLS MUST TEACH THE THREE R'S

Should Go Hand in Hand With  
the Three R's Taught in the  
Little Log School House.

(By The Associated Press)

Galesburg, Ill., May 12.—Educational methods of today must not only continue to teach the three R's taught in the little log school house of half a century ago but must supplement these with the three H's—education of the head, the hands and the heart.—Dr. John Morris Evans of Chicago, declared tonight in an address before the state convention of Parent-Teacher Association.

"The new education," he said, "is not so much a preparation for life as life itself. Education consists in enabling a person to find himself and to be accountable to himself. It means learning to master the environment in some part in the interest of life. It means the effort thru group activity to improve social relations."

**WILL REFRAIN  
FROM DISCUSSION**

Washington, May 12.—The U. S. will refrain from any discussion of the Silesian session before the allied supreme council in the event that subject is considered, it was said today. The instructions to Ambassador Harvey, who, as President Harding's personal representative will attend all meetings, was explained, are to take an active part only in the consideration of questions involving American interests.

### LABOR IN FIGHT TO PREVENT PASSAGE OF PUBLIC WELFARE BILL

President Gompers of A. F. of L. Sends Telegram of Protest to Senator Kenyon—Oppose Basing Wages on Living Costs—To Declare Its Attitude on Soviet Russia

(By The Associated Press)

CINCINNATI, Ohio, May 12.—The executive council of the American Federation of Labor today entered the fight to prevent the passage of the bill now before congress to create a department of public welfare.

President Gompers, in accordance with instructions from the council, tonight telegraphed Senator W. S. Kenyon, chairman of the senate committee on education, a protest against its vreation and asked that representatives of the federation be allowed to lobby.

"We must solemnly protest," said the telegram, "against the enactment of any measure that would weaken or take from the department of labor any functions given it by the act under which it was created, or weaken the power of the department in any way."

The enemies of organized labor would like to ruin the labor department by dismembering it under guise of creating a department of welfare. Mr. Gompers said in a statement. The executive council completed its legislative program and made plans to oppose anti-labor legislation in the various states. Oppose Wage Based on Living Cost.

The council recommended that the present system of basing wages upon the cost of living be discouraged, as the workers of today, it said, are entitled to more than a wage that gives them a decent living.

A tentative declaration on the attitude of the federation toward the soviet government of Russia was read, but action was delayed until tomorrow.

The declaration condemns every phase of the soviet regime in Russia and contends that the American trades union movement must not give any aid or support to the Bolsheviks.

The socialist party is censured for its alleged tendency to support the communists' propaganda in this country. Unless this party takes a stand against the communists and radical elements, it was stated, the federation will be inclined to regard it as an enemy of organized labor.

The industrial workers of the world are severely condemned as one of the organizations, which with the communist party, are attempting to destroy organized labor in America. The industrial workers, it is charged, is one of the instruments being employed in this country by the soviet regime to destroy labor and overthrow the government.

**GERMANY'S ACCEPTANCE  
STIMULATES INTEREST**

Washington, May 12.—Germany's acceptance of the allied reparations demands has promptly stimulated interest of American business in German trade possibilities. There has been a marked increase in the number of inquiries reaching the state department concerning trade restrictions, to which Secretary Hughes has replied, in effect, that with the exception of a few articles and a few restrictions, Americans may trade with German houses freely.

**MANY ATTEND BIG  
CHURCH CONVENTION**  
Indianapolis, Ind., May 12.—The twenty-eighth quinquennial session of the general conference of the church of the United Brethren in Christ, opened today with approximately 4,000 persons in attendance.

Bishop H. H. Fout of Indianapolis opened the session by reading the report of the board of bishops, which paid tribute to the dignitaries of the church who have died during the quadriennium. Reference to the ending of the World War was made in his report, and a he abolition of the American saloon and the giving of the halo to women. The need of a beer educated and beer paid ministry and an adequate pension system for ministers were emphasized.

**WANT COURTESY  
FOR CORRESPONDENTS**  
Washington, May 12.—A resolution demanding for American newspaper correspondents in Ireland the same courtesy and consideration given British newspapermen in the United States was introduced today by Representative Dyer, Republican, of Missouri. He charged that the Dublin correspondent of the New York World was warned on May 2nd by British authorities "to keep out of Ireland and that General Strickland reprimanded and threatened American newspapermen in Cork last month" for honestly reporting atrocities of British military rule.

that the days of normalcy are approaching.

One feels no doubt after reading the testimony of Sergt. Hair, one of the soldiers who accompanied Bergdoll on his famous expedition for buried treasure, that it wasn't the sergeant who was to blame for the escape. A man "higher up" must be charged with that offense against decency.

Friends of the University of Illinois must certainly find satisfaction in the legislative action unanimously favoring the \$10,000,000 appropriation asked for the university. The result shows the effect of continued propaganda and thorough organization.

## POPPIES FOR DECORATION DAY

Five million poppies, replicas of the red flowers "that blow in Flanders fields," have arrived in America to be worn by Americans on Memorial Day in commemoration of the fallen heroes of the late war. The flowers, most of which were made by French war orphans, will be sent by the American-Franco Children's League, One Madison Avenue, New York City, to many patriotic societies throughout the country for distribution on Memorial Day.

The American-Franco Children's League, which is the only official American branch of La Ligue Americaine Francaise des Enfants, of Paris, has been endorsed by the National Information Bureau. Mme. Millerand, wife of the President of the French League and the Rev. Dr. Herbert Shipman, prominent New York clergyman, of the American branch, Col. R. H. Tyndall, national treasurer of the American Legion, is also treasurer of the League.

The proceeds of the poppy sales will go to the League for the amelioration of conditions among children in the war-torn areas, innocent victims of the war. The league is a clearing house for relief work among French children and numbers among its members men and women prominent in the philanthropic activities of both nations.

The Flanders poppy has been selected as the memorial flower because it has been said by so many to represent "the soul of the dead." It was immortalized in verse by John McCrae. Its adoption as the Memorial Day flower will serve a three-fold purpose—the commemoration of the dead, the relief of children in France, and the tightening of the bonds of friendship between France and America.

## CANADIAN RECIPROCITY.

Calling attention to the fact that the Canadian reciprocity act, passed in 1911, is still on our statute books, but has never been ratified by the Canadian parliament, the Republican Publicity Association declares: "A few days ago a proposal was introduced in that body for its endorsement, but was defeated by a narrow margin. It is said that had it taken the form of a direct resolution, instead of an amendment to another measure, it would have carried. There is said to be a possibility that the political faction now in control of the Canadian government will be overthrown at the next election, and those who favor reciprocity come into power. If that situation presents itself the farmers of the United States and Canada may be sending their goods to each other's market sooner than they expected.

"The fact is that the farms of Canada have been developed to such an extent that their products far exceed the domestic demand, and either the planting must be curtailed or a big export market developed. With free entry into the United States the problem of the Canadian farmer is solved at once, and he will exert himself to raise and send to this country every pound or bushel of surplus foodstuffs that his land will produce. The effect on the American farmer is easy to see. It is always difficult, and at the present time impossible to find a domestic market for the disposal of all of our own agricultural products. The American farmer is described by his friends as the most unfortunate of creatures, inasmuch as most of his products in recent months have been sold at a loss.

"With reciprocity between the United States and Canada an accomplished fact, prices of farm products would be hammered down still further, many farms would be abandoned for mere grazing purposes, and American agriculture as an industry would receive a blow from which it would not soon recover. There is time for Congress to repeal the act of 1911 before Canada has an opportunity to ratify it, and the forthcoming tariff bill offers a convenient vehicle for the repeal provision. Why not end the controversy by wiping the objectionable statute from the books?"

## THE TRUTH ABOUT THE CHICAGO BOARD OF TRADE.

(From the Chicago Tribune.)

Downstate senators who are making every effort to railroad thru the legislature the farmers' two bills striking at the existence of the Chicago Board of Trade are not helping the farmer; they are injuring him. The board's services to the farmer and to the world, rendered over a period of many years, are too valuable to be dispensed with in haste and prejudice.

The farmers charge that unrestrained trading in contracts for the future delivery of grain is gambling, that such trading affects prices to the profit of the "gambler," and the loss of both producer and consumer. They ask that future trading be so limited as practically to exclude it. Omaha limited its corn future market and the cost of handling the grain jumped from 1 and 2 to 10 and 12 cents. The farmer was out from 8 to 10 cents a bushel. Germany abolished its future trading in 1896, but restored it four years later. Without it wider margins were required to handle the grain, the farmer received less the consumer paid more and violent price fluctuations increased.

During sixty years in America without future trading the average twenty year range of fluctuations was \$1.35; during forty years with future trading the average was 65 cents. During thirty-four months of government wheat control when there were no wheat future markets, the average monthly price range was 2.51 cents; during thirty-four months of normal future trading it was 1.15 cents.

trading the range was 6.2 cents. These figures indicate conclusively that future trading stabilizes the grain markets. In addition, thru the hedging privilege, it provides insurance for the farmer's grain and makes his warehouse receipts just that much better with the bank.

The speculator is the heart of the future trading system. He risks his money on his judgment of the grain markets and so carries the insurance, in effect, America markets three-fourths of her grain in the first half of the year; that necessitates a market with a huge absorbing power. The speculator supplies it; he makes it possible to obtain a grain buyer, or a seller, or both, any minute of any business day. His operations provide the broad open, fluid market on which America's grain crops flow from producer to consumer. He it is who makes the cost of handling grain the lowest of any commodity. He represents the speculative impulse, harnessed and put to work on an eminently useful job, and experts estimate that his cost, reckoned in terms of the total of grain futures alone, is only 2-5 of a cent a bushel.

Suppose these valuable economic services are forgotten, and future trading abolished. A cash market remains. That means that only a few rich men would have the resources needed to operate. There hardly could be a straight path to market manipulation, price control, and monopoly.

And that is just what the farmers do not wish. They desire a straight and simple road to market, fair and honest prices when they get there. The best machinery the human mind has yet been able to devise to achieve these results is machinery exactly like that of the Chicago Board of Trade. Therefore to maintain that board, to wreck it, or to drive it to another state or nation would be worse than a blunder; it would be a tragedy.

The two bills pending at Springfield aim at precisely this result. If they are passed, not alone the farmer, but the state of Illinois, and the entire consuming public, must suffer.

## MOUND WOMAN'S CLUB MEETS THURSDAY

Interesting Session Held at Home of Mrs. Clint Loyd Yesterday Afternoon—Irving Demonstration Given By Young Women from I. W. C.

The regular meeting of the Mound Women's Country club was held Thursday afternoon at the home of Mrs. Clint Loyd on the C. A. Rowe farm northwest of the city. The assistant hostesses were Mrs. Charles Tendick, Mrs. Henry Wax, Misses Leota Tendick, Mary and Maggie Tholen. There were about seventy-five in attendance and six new members were taken into the society.

The session was held beneath the trees on the spacious lawn at the Rowe home and the beautiful surroundings added much to the pleasure of the occasion. The main feature of the afternoon was a cake icing demonstration given by Miss Bertha Jones, head of the home economics department of the Woman's College and Misses Ellison and Munson, students in the department.

The program also included an informal address by Miss Loving, the county tuberculosis nurse, who gave various facts about the tuberculosis situation in the county and referred especially to the coming election, when the people of the county are asked to authorize bonds to secure additional funds necessary to complete the sanatorium.

The election of officers was held at the business session and the following were chosen, to assume their respective duties in October:

President—Mrs. J. T. Gunn.  
First Vice President—Mrs. J. Vasey

Second Vice President—Mrs. W. T. Richardson.  
Secretary—Miss Edith Stewart.

Treasurer—Mrs. Winfield Scott.

It was decided to pledge the sum of \$10 toward the Near East and Chinese relief funds, \$5 to each fund.

At the close of the program the members and their guests enjoyed a social hour and at this time the hostesses served delightful refreshments.

The making of the following cake fillings was demonstrated by the young women from the college:

Orange Filling— $\frac{1}{2}$  cup sugar,  $\frac{1}{2}$  tablespoons flour, rind one orange,  $\frac{1}{2}$  cup orange juice;  $\frac{1}{4}$  teaspoon lemon juice, 1 egg, 1 tablespoon lard.

Chocolate Filling—2 oz. chocolate, 1 tablespoon butter, 3 tablespoons hot water,  $\frac{1}{4}$  tablespoon vanilla, enough confectioner's sugar to thicken. Melt chocolate over hot water, add butter, and boiling water to melt chocolate.

Ornamental Icing—Two cups granulated sugar, 1 cup water, whites 3 eggs,  $\frac{1}{4}$  teaspoon cream of tartar, boil sugar and water until it threads, and after thoroughly cooled pour gradually over the whites, beating constantly. When stiff enough, spread on cake.

## DOUBLE PLATOON BILL MA YPASS

The double platoon bill for fire departments recently passed the senate and if it becomes a law a fireman will be required to work not more than 12 hours and will spend the other half of the day at home. About double the number of men now employed will be necessary in cities like Jacksonville where the double platoon system has not been in effect.

Under the proposed law a year's time will be allowed for putting the rule into effect as provision must be made for the necessary financing.

## PRESENTED PLAY AT LYNNVILLE

The Ladies' Aid society of Murrayville presented their play, "An Old Fashioned Mother" at Lynnville Christian church Thursday evening. The performance was witnessed by a large audience and all were well pleased with the entertainment pronouncing the play one of the best home talent affairs ever seen in Lynnville. The play was for the benefit of the Sunday school.

**HOSPITAL DAY IS GIVEN RECOGNITION**

Friends of Passavant Gathered Thursday for Interesting Program—Many Visitors Inspected the Building.

Thursday May, 12, will surely be remembered as a red letter day in the history of Passavant hospital. When one recalls the beginning, four large, bare rooms, one for men, one for women, one for kitchen and the fourth for nurses' home, office, reception room, operating room all in one, the present lant seems like a dream.

The noon hour brought hundreds of visitors to the hospital for the picnic dinner and the special observance of hospital day. There was a great abundance of good things and the ladies were very courteous in serving all. Rev. A. P. Howell gave the invocation.

Later President A. A. Curry called for order again and requested Dr. W. E. Spoons to offer prayer which was done in a fervent manner and then the chair said in brief:

"I am truly glad to be here today and see this fine gathering which surely speaks well for Passavant hospital. This is an enterprise which belongs not to the city alone but to the county as well. All the people of the churches of the county are interested and are a part and parcel of the management. I long for the time when there will be room here for the sick and wounded of the whole community. I was recently in Chicago and conversing there with some prominent railroad men heard them say that Jacksonville had some of the best doctors in the state."

"It becomes us all to tell of the good qualities of the institution and I hope to see Scott, Macoupin and Green counties with us for they have no hospital."

Mayor L. F. Berger of Meredosia was the next speaker. He said in brief:

"I spent a number of weeks a patient in this institution and can tell from experience how good it is. The care I received was unexcelled and I doubt if I had survived but for the excellent service rendered me while I was a patient in the hospital. I am glad to be here today and I told Miss Venable if she would bring her force down to Meredosia I would order them a good supper and show them plenty of good times."

Working for Others

Mayor E. E. Crabtree spoke next saying in part: "We are now in the midst of troublesome times. The papers tell of murders, robberies and holdups on all sides. Yet on the other hand there was never a time when more people are trying to benefit their fellow men."

"Last week was boys' day; Sunday was mothers' day and this is hospital day, representing the foundation of society; the sacrament of the mother's devotion and the blessing of the care for the unfortunate. There are 8,000 hospitals in the land asking the people for support and encouragement. The art of nursing is ages old. Phoebe and Marcella were nurses in ancient Rome, but it was not till the nineteenth century that regular schools for nurses were established."

"Today we are honoring the memory of Florence Nightingale, a woman born in wealth and well educated. She took a course in nursing and then devoted herself to the welfare of the sick and wounded soldiers of the Crimean war. There were 8,000 sufferers with no care and in a fearful condition, but she took with her a corps of doctors and nurses and besieged parliament till something was done for the needy and suffering soldiers."

"England wanted to honor her but she slipped back home incog. However, they wouldn't have it so and they gave her 5000 pounds, nearly \$25,000 and she used it to erect a school for nurses."

As President Curry was obliged to leave, Vice President Rodgers took his place and remarked that Mr. Berger also promised a boat ride on the river if the boat was there when the visitors came, and a movie picture show also. He then introduced H. H. Bancroft, who said in brief:

"This is the right kind of a movement to make the people better acquainted with hospital work. It is certainly fitting to honor the memory of Florence Nightingale and to promote the cause of the 8000 hospitals in the land. As a girl, Florence Nightingale showed her propensity for nursing the sick. When she went out with her dolls she would have one of them get sick and would hasten to put the sufferer to bed and apply all sorts of remedies. She would stop the flow of sawdust and minister to the wants of the play invalids. She was the first female not of royal blood to be honored with a statue in England."

"The home is the most sacred and important place in the world and there the mother presides and so the gentle touch of women in the hospital is the all important factor for good. Women of good works have lived to good old ages. Florence Nightingale was 90 when she died; Clara Barton, 91; Dorothy Dix, 85 and Elizabeth Fry 65."

"Never can we forget the lovely ministrations of Sisters Caroline and Louise, first in charge of Passavant hospital. Their untiring devotion and such difficult surroundings. With meager facilities and scant resources they bravely went ahead and did an untold amount of good. Truly they were angels of Mercy and we would here pay a loving tribute to their memory. And here, too, I have an especial interest for I am connected with the family of Dr. King who gave so abundantly of money and labor for many years to the institution. Others, too, wrought in the early days; F. G. Farrell and later his son; J. R. Lott, S. W. Nichols, E. W. Brown and others did much for the institution and now the trustees are truly for-

tunate in their present president, A. A. Curry, who is a strong man in the place. We are happy to know the hospital is reaching out to other territory. It is not a town institution; it belongs to the whole county and I hope all will feel it a privilege to assist in making the institution what it should be."

Treasurer F. E. Farrell then said that Saturday the Ladies' Aid would have an all day market at Jacksonville Plumbing Company's establishment on West State street and all having anything to give to the cause are requested to bring it there before nine o'clock in the morning if possible.

The audience was dismissed with prayer by Dr. Thomas W. Smith.

The management of the hospital desire to tender sincere thanks to all who in any way contributed to the fine success of the occasion and it is the hope and expectation that the event will hereafter be an annual affair with the hospital.

Dr. R. R. Jones helped represent Woodson in the city yesterday.

**NOTICE TO CONTRACTORS**

Sealed bids will be received by the City of Jacksonville, Illinois, up to the hour of seven-thirty o'clock p. m. on Monday, May 23rd, A. D., 1921, at the Council Chamber in the City Hall of the City of Jacksonville, Illinois, at which time and place they will be publicly opened for constructing the brick setting, ash pit and alterations to present sewer and foundations for the Two Three Hundred Horse Power Water Tube Boilers in the Jacksonville Power Plant and Water Works. Complete detailed plans and specifications for said work may be seen in the office of the Caldwell Engineering Company, 504 Ayers Bank Building. Bids will be received for the entire work complete and not for any special section or part. Each bidder must accompany his bid with a certified check for ten per cent (10) of the amount of the bid, the same to be forfeited in case the work is awarded to the bidder and he shall fail to execute contract and file bond as required. Payment for the work will be made in cash for eighty-five per cent (85 per cent) of the work completed each month, the final fifteen per cent (15 per cent) to be paid upon the engineer's final estimate. A bond in the sum of fifty per cent (50 per cent) of the contract price will be required for the faithful performance of duty. The right is reserved to reject any and all bids.

The City of Jacksonville will furnish at the work all materials required therefor except materials for mortar and fire clay. The City of Jacksonville will set all frames, castings, buck-stays, through rods and will place them in position for the brick work. The contractor must bid with the understanding that the engineer will direct the time and manner of constructing the various parts of the work.

### KRUTTSCHMITT HOLDS FIRMLY TO VIEWS ON RAILROAD SITUATION

Labor Prices Fixed by the  
Government Must be  
Reduced

(By The Associated Press)  
WASHINGTON, May 12.—During a vigorous cross examination before the senate interstate commerce commission today Julius Kruttschmitt, chairman of the board of the Southern Pacific, held firmly to the views he had given in direct testimony as to the causes of the financial plight of the railroads.

Expenditures for labor, fixed partially and wholly by government action must be reduced, Mr. Kruttschmitt answered in reply to questions from members investigating the railroad situation. The present revenue as affected by recent rate advances, are justifiable, he added, and must be sustained.

Arguments and queries by senators as to his views as to whether lower freight rates might bring the roads more business and thus increase profits out of smaller tolls, met with not the slightest encouragement from the railroad director.

Senator Poindexter, Republican, said many complaints were being voiced because of the slowness of the action of the railroad labor board in deciding complaints and Mr. Kruttschmitt agreed that this was a difficult factor.

### ILLINOIS COLLEGE PLAYS WESLEYAN

Bloomington Team Will Meet Locals on Illinois Field This Afternoon—Hard Game Expected.

Coach Harmon's Illinois warriors will meet Wesleyan university of Bloomington, on Illinois field this afternoon.

Illinois defeated Wesleyan last week by a score of 24 to 0. However, Wesleyan was undoubtedly off her stride that day. Therefore Illinois does not expect such an easy game this afternoon.

The Wesleyan team has been playing good ball all season with the exception of the game with Illinois. They played at Decatur yesterday and came here prepared to give Illinois a real fight.

Fanning will be on the mound for Illinois and will try to turn Wesleyan back again. The game will start at 3 o'clock and it is expected a large crowd will be out to witness the contest.

### PEORIA GAME FILLED WITH HEAVY HITTING

Peoria, Ill., May 12.—Peoria out hit the Cedar Rapids Bunnies in the opening game of the series, winning 11 to 7. McGlone, starting for the locals, was knocked from the hill in less than an inning.

### TESTIMONY HAS BEEN FINISHED IN BLAIR CASE

Normination of Winston-Salem Man Held up by Johnson

(By The Associated Press)  
WASHINGTON, May 12.—Testimony and arguments in the case of David H. Blair of Winston-Salem, North Carolina, nominee for international revenue commissioner, were concluded today by the senate finance committee. A decision is expected to be announced Saturday or Monday.

With the nomination held up by the fight of Senator Johnson, Republican, California, against his confirmation, the office of international revenue commissioner today became technically vacant, the three day term of M. F. West, assistant commissioner, expiring by legal limitation. Secretary Mellon of the treasury department took over the commissioner's functions temporarily.

Testimony on Johnson Charges  
Further testimony on Senator Johnson's charges that Mr. Blair as a delegate to the Republican national convention, violated the North Carolina primary in failing to vote for Senator Johnson and also that because of an income tax case involving his father-in-law and wife, Mr. Blair should be disqualified was taken today by the committee.

Marion Butler, former senator from North Carolina, and Robert McNeill, a North Carolina lawyer, conferred regarding the Republican primary last June. Both witnesses were said to have declared the primary was not regarded as binding upon the delegates, but was an expression of reference only.

ernment thru its legation at The Hague as soon as it was known that the oil bill was under consideration and before it was introduced in the second chamber. Previously on June 5, 1920, the American minister had made formal inquiry regarding the mining laws of The Netherlands East Indies and in August, 1920, the statement continued, the representative of a responsible American oil company made application for participation in the Jambli concession. The bill was introduced in the second chamber on November 22, 1920.

### HAWAIIANS CAN'T HAVE BEER EITHER

San Francisco, May 12.—An effort by the house of representatives of the Hawaiian legislature to loosen up prohibition regulations by asking congress to permit manufacture of four and one half per cent beer and 15 per cent wine in the territory was defeated by the territorial senate, according to mail advices from Honolulu.

### SCOTT FUNERAL WAS HELD AT MANCHESTER

Remains of Late Mrs. John Scott Laid to Rest Thursday Afternoon—Eight Grade Commencement Exercises—Other Manchester News.

Manchester, May 12.—Funeral services for the late Mrs. John Scott were held at 1 o'clock Thursday afternoon at the Baptist church and were attended by a large number of friends and relatives of the deceased. Music was furnished by Mrs. George Cooper, Mrs. William Arendell, Mrs. E. O. Hess, W. M. Story and E. L. Maine, with Miss Louise Pearce at the piano.

There was a great profusion of floral tributes and these were in charge of Mrs. James Miller, Mrs. Mary Chapman, Mrs. Ethel Rousey, Misses Lennie Chapman, Lena Hayes and May Greenwalt. Interment was made in the Manchester cemetery, the bearers being William McPherson, James Mellor, William Arendell, Albert Leonard, John VanCleave and Clyde Chapman.

### Celebrates Birthday

Mrs. Margaret Wyatt, one of the best known residents of Manchester, celebrated her eighty-first birthday Tuesday. A family dinner was one of the features of the day, among those present being Mrs. W. T. Reaugh of Jacksonville, a daughter of Mrs. Wyatt. A number of postcards and letters came to remind Mrs. Wyther on the important anniversary and there was also a very beautiful bouquet of carnations sent by the Murrayville Ladies' Aid.

### Eighth Grade Commencement

The eighth grade commencement exercises were held at 8 o'clock Thursday evening at the Methodist church, where a large audience had assembled. The graduating class includes five members. The church was prettily decorated in the class colors, red and white, and the following program was presented:

Class motto "Press On."

Mrs. Bert Lovelless of Carlinville was a guest of her sister, Mrs. Fred Peek, the first of the week.

Mrs. Alva Boruff of Jacksonville spent several days recently with her mother, Mrs. Margaret Wyatt.

### FOREIGN MONEY MARKET STIMULATED

Sterling Shows Highest Level Since April, 1920—Other Exchange Also Shows Gain.

(By The Associated Press)

New York, May 12.—International money markets, as represented by foreign exchange, were further stimulated today by Germany's acceptance of the allied reparations ultimatum.

Demand sterling, or bills on London, rose to \$4, the highest level reached since April of 1920 when they made an estimate rise to \$4.07.

French and Belgian francs at 8 1/4 cents showed an overnight gain of about 20 points and were at maximum levels for any period since the armistice.

The Italian lire rose 18 1/2 points, gained 8 points. Dutch exchange gained 8 points.

Exchange on Scandinavian coupons was higher by 5 to 15 point but the greatest gain of any of the minor countries was made by Greece, the drachma scoring an overnight rise of 75 points to \$5.80.

New York, May 12.—J. P. Morgan and company announced today purchase of \$35,000,000 ten year 7 1/2 per cent gold bonds of the E. I. DuPont de Nemours and company, which will be offered tomorrow thru a country-wide banking syndicate at 100 and interest.

### D'GOUETTE ARRIVES IN MAYENCE

(By The Associated Press)

Dueseldorf, May 12.—General De Gouette, commander of the allied forces on the Rhine, arrived today from Mayence and immediately ordered the preparations for occupation of the Ruhr to cease. It was remarked among the military officers that the order said the "operation had been postponed" and not abandoned.

### REVIVAL SERIES PLANNED AT ALEXANDER CHURCH

A special series of meetings is to begin at the Alexander M. E. church next Sunday evening. The services will be in charge of Rev. D. C. Linton, evangelist and singer of Danville, and a great deal of interest is already being manifested in the proposed meetings. The sermon next Sunday evening will be delivered by Rev. E. L. Fletcher, superintendent of the Jacksonville district.

### SAYS THERE IS NO DIFFERENCE IN TWO OLD PARTIES

Farmer-Labor Party Says it is Only Remedy for Ills

(By The Associated Press)  
CHICAGO, May 12.—The national executive committee of the farmer-labor party at the end of a three days session made public a statement today declaring there was no difference between the republican and democratic parties and that "the only peaceable remedy for the workers is to supplement the efforts of the trade unions, farmer organizations and co-operative societies by independent political actions thru the Farmer-Labor party."

"President Harding made his campaign on the issue of opposition to President Wilson's league of nations," the statement said. "He is now embroiling the United States again in the intrigues of the unprincipled plotters of Europe who have heaped peace upon the devastation of war and succeeded only in bringing famine and disaster."

### Assails Esch-Cummins Law.

The statement assails the Esch-Cummins law and declared that "The Republican administration finds this measure not sufficiently oppressive of labor and is about to amend it to abolish the railroad labor board."

The courts, likewise, continue their humble service for Wall Street and their stony indifference to the welfare of the workers. The supreme court has destroyed the protection for labor contained in the Clayton Act, has served wealth by whitewashing the election of Senator Newberry, and prevented the use of the Lever act to punish profiteers although it was liberally used to lash labor.

"The United States court of appeals at Minneapolis has declared invalid North Dakota's grain grading law for the protection of farmers. The only peaceable remedy is by independent political action thru the Farmer-Labor party."

### HOPES FOR DAY OF UNIVERSAL PEACE

Washington, May 12.—The hope was expressed by President Harding in an address tonight at a banquet of the National League of Masonic clubs, that he would see the day when men in responsible positions, speaking for their people, "could gather around a conference table to adjust their disputes."

"If the peoples of the world can only understand each other," he said, "and if men in authority can only face each other in speaking for the several peoples, there will never be another conflict to block the progress of civilization."

## Could Your Widow Pay Your Debts?

You men who have mortgaged—you men who have borrowed—may have signed away your family's "right to be happy." Legal obligations descend, you know. There's that little clause about "heirs and assigns" that isn't to be forgotten for an instant.

If you've had to mortgage your farm or put up your "collateral," your estate isn't apt to come through probate in very good shape—there may be something left and there may be less than nothing. It's all very probable you know—the very existence of the mortgage or the note indicates the possibility. Your family may pull through all right—it's possible enough, but how probable is it?

And yet you can guarantee their prosperity—certify their happiness. Insure! Now! Don't wait! Protect your wife and your children—make it possible for them to "raise that mortgage." You'll leave a better name if you do—there'll be reason to respect you instead of grounds to reproach you.

If you have a mortgage on your farm or home you should investigate our Double X Mortgage Insurance Policy, especially designed and exclusively offered by the Illinois Life Insurance Company to fit the particular and peculiar needs of the man who has borrowed. Maximum protection at minimum cost.

## FINE BAND CONCERT IS GIVEN AT WHITE HALL

Rawlins Concert Band of Roodhouse Gave Fine Program At White Hall Theatre Wednesday Evening.

White Hall, May 12.—The Rawlins Concert Band of Roodhouse gave a concert in Princess theatre Wednesday evening that embraced a program of a higher order than has probably heretofore been undertaken by this popular musical organization. The attendance, however, was small, owing to the

inclemency of the weather. The Rawlins Concert band is very popular with all the people of this section. It is under the direction of Dr. L. A. Rawlins, a practicing dentist of Roodhouse, who has brought it up to a high state of perfection and accomplishment through his love for music and the altruistic desire to encourage the musical advance of his home community. His success is demonstrated by the character of the concert at White Hall Wednesday night, which as stated is a higher order of numbers than has ever been before undertaken in a public concert by a Rawlins organization. The saxophone solo by M. W. King and the trombone solo by Donald Hamilton were both encored, and Ben Claiborne gave a baritone solo in voice with band accompaniment that was so acceptable that Mr. Crow was twice encored, with applause to spare in plenty. The closing remarks by Director Rawlins gave a very happy finish. He said: "I am pleased to note the evidence of appreciation of this audience, and if your appreciation is as great as is our pleasure in playing for you, I am indeed glad." The reception of these remarks gave no doubt as to the effect upon all concerned. The program was as follows:

Overture, Martha (Flotow.)  
Grand Selection, Il Trovatore (Verdi).  
Fancy Free (Clay Smith).  
Overture, Ungarische Lustspiel (Keler-Bela).  
The Toreador Song in French from the opera "Carmen" (Bizet).  
Ben Claiborne.  
Selection of Hawaiian Melodies, arranged by Lake.  
Grand Fantasia, Home Sweet Home the World Over (Lampe).  
"Atlantis" (The Lost Continent) Suite in Four Parts (Safrenko).  
No. I—Nocturne and Morning Hymn of Praise.  
No. II—A Court Function.  
No. III—"I Love Thee" (The Prince and Anna).  
No. IV—The Destruction of Atlantis.

RECEPTION GIVEN AT NURSES HOME  
Building on Court Street Acquired By Our Savior's Hospital Opened to Friends.

The nurses of Our Savior's hospital held a reception and party last night in the parlors of the nurses home, recently completed. The building is on East Court street to the north of the hospital building and was formerly the Kinison property. It was purchased a year ago for the hospital and since that time extensive betterments have been made.

The rooms have been re-decorated, a furnace and lighting system installed. The furnishings are such as to make it a real home and the hospital nurses will without doubt enjoy it as a comfortable and pleasant surroundings. The home has ample accommodations for fifteen nurses.

The event last night was quite informal and the guests found generous hospitality accorded them.

BURGLARS ENTERED STATION AT FRANKLIN  
When the Burlington freight agent at Franklin opened the station yesterday morning he found that burglars had entered the room. A window had been pried open and a broken lock testified to the entrance. Papers were scattered about promiscuously but nothing of value had been taken.

## CIRCUIT COURT IS ADJOURNED TO MONDAY

Various Orders Entered By Judge Jones—Grand Jury Returns Indictments—Reports on Jail Made.

Judge Norman Jones yesterday adjourned the circuit court until Monday afternoon at 1:30 o'clock. The grand jury concluded the work of the term and was discharged. A committee from the grand jury visited the jail and the report filed is presented below.

The jury did not find a true bill against Charles Hills, who was arrested some weeks ago on a statutory charge. Indictments were returned against William L. Hart, forgery; Edward McCollister, burglary, larceny and receiving stolen goods; Laura Duncan, murder.

M. Orien Kiel, grand larceny. Frank Milton, grand larceny. Marion Johnson, grand larceny. Chester Paxton, statutory charge. Merle Sublett, larceny. George Northcott, forgery. Harold Scott, burglary. The jail report was as follows:

"We the grand jurors of the county of Morgan, state of Illinois, for the May term, have visited the Morgan county jail and find imprisoned therein 8 inmates, 4 of them colored men, 3 white men and one white woman. The prisoners state they are well fed and well treated.

"We find the jail well kept, clean and in sanitary condition. We recommend that the county board of commissioners cause the

lower half of the east window on the south side of the jail to be permanently closed for safety to a cell located near said window.

C. J. Whitlock, Dennis Schram, William Cleary.

The following docket entries were made:

## Social Events

## Ebenezer Aid Met Yesterday

The Ebenezer Aid Society was entertained yesterday afternoon by Mrs. Arch Bridgman at her home northeast of the city. Mrs. James McFillen presided over the business session which was held. The activities and plans of the society were discussed after which the ladies enjoyed a pleasant social hour and the hostess served dainty refreshments. There were a number of guests at the meeting.

## Entertained For Chicago Guest

Mrs. E. W. Crawford gave a delightful informal company yesterday afternoon at her home on Sandusky street in honor of Mrs. Thomas Crawford of Chicago, who is a guest in the city. A number of guests were invited to meet Mrs. Crawford and a very pleasant afternoon was spent. The hostess served delicious refreshments.

## B. B. Club Met With Mrs. Taylor

Mrs. Clarence Taylor entertained the members of the B. B. club yesterday afternoon at her home on South East street. Two interesting readings were given and much enjoyed. Mrs. Clifford Alves read a clever short story, and Mrs. Grace Coward read "Faking His Chance." There was a pleasant social hour following the reading and the hostess served dainty refreshments. Mrs. Charles McHatton was a guest of the club.

## Morton Teachers Are Entertained

The teachers of the Morton school were hostesses to the teachers of the other grade schools in the city last evening at a picnic on the lawn. The teachers were invited to a supper and a delicious picnic supper was served out on the spacious lawn of the Morton school. Miss Duffner was the chairman of the committee in charge of this pleasant party.

## Ebenezer Aid Met With Mrs. Bridgman Yesterday

The Ladies' Aid society of Ebenezer church met with Mrs. Arch Bridgman Thursday afternoon with a good attendance. Devotionals were read by the president, Mrs. James McFillen. There were several songs by the society and then the business meeting was held. This was followed by a program: Piano number—Miss Ruby De-weese. Reading—Miss Beatrice Stand-ley. Piano number—Ross Bracewell. Story—Mrs. Bracewell. Vocal—Mrs. Arch Bridgman. Mrs. James McFillen, Miss Ella Blackburn. Vocal—Miss Edna Bracewell. Social hour followed the program and refreshments were served. The next meeting will be held with Mrs. Wesley Birdsall, June 9.

## REBEKAHS PRESENTED UNIQUE PROGRAM

Caritas Lodge Entertained Friends Thursday Night—H. J. Rodgers Winner of Name Quilt.

Caritas lodge of Rebekahs gave a very unusual and interesting entertainment last night at I. O. O. F. hall on West State street. Special interest centered about the disposition of the name quilt on which a committee has been hard at work for the past three months. After supper was served in the dining room, persons as they paid were given tickets entitling them to a chance in the drawing of the quilt. The winning number was 625 and former Mayor Henry J. Rodgers drew it. He was naturally very greatly pleased over his good luck. The handsome quilt has the names of more than 600 people worked upon it with red silk.

A second prize, a beautiful cake, was drawn by Miss Mittie Godfrey.

In the earlier part of the evening an entertaining program was presented with Mrs. John Brodie presiding. The program was as follows:

Opening remarks—Mrs. O. E. Tandy. Instrumental solo—Miss Opal Windmiller. Group of readings—Miss Katie Clarkson. Group of songs—Mrs. E. D. Canatney.

Reading—Miss Mary McKean. Vocal solo—Norman Campbell. Instrumental solo—Miss Windmiller.

Cake, pie, coffee and other good things were served in the dining room. The committee which had charge of this event included Mrs. Brodie, Mrs. Abbie Spillman and Mrs. W. I. Crabtree. These same ladies also had charge of the quilt and its completion was due to their tireless efforts.

Prizes of Eversharp pencils were offered persons securing the largest number of names and these prizes were awarded to Mrs. Spillman and C. H. Balsley. The whole evening was very enjoyably spent.

**ALEXANDER W. F. M. S. IN REGULAR SESSION**  
Alexander, May 12.—The regular meeting of the W. F. M. S. of the Alexander M. E. church was held Thursday afternoon at the home of Mrs. A. G. Watret. The hostess was assisted by Mrs. J. F. Willetts. There was a large attendance and a very interesting session was held. The program included a reading by Mrs. Mayme Davenport, the subject being "Rosie's Prayers and Pen-pens for China." The mystery box was conducted by Mrs. Noel Wiley.

A social hour and the serving of dainty refreshments followed the program.

## THE CITIZEN'S DUTY TO THE COMMUNITY

Realization of Obligation is the Great Need—Four Things Essential for a City's Growth.

A modern chamber of commerce is not built for business purposes only. It seeks to impress the citizens with his obligation to the community and to bring about co-operative action and worth while public service. This was the thought developed at a helpful community conference held last night at Armory hall when Rev. R. H. Bready of Pontiac, Michigan made the principal address. There was an audience of several hundred people present with Judge H. P. Samuel presiding.

Brief addresses were also made by Mayor E. E. Crabtree, Harry M. Capps and Dr. J. R. Harker. Preceding the speaking program Albert C. Metcalf led in community singing with Willard Wesner at the piano.

It had been announced in advance that it was not the purpose to secure at this meeting members for the proposed organization and the subject was not introduced. The purpose was to give people a clearer understanding of the functions of a chamber of commerce, built after modern ideas and to show the need of such an organization here.

**The Growth of a City**  
Rev. Mr. Bready in addition to being a minister of a prosperous church in Pontiac, is a member of the board of city commissioners and is actively identified with the chamber of commerce in his home city. The business prosperity and the spirit which prevail are well evidenced by the fact that in ten years' time Pontiac has gained 130 per cent in population. This has been made possible, Mr. Bready said, very largely because of the co-operative efforts of the people and their willingness to forget selfish interests in working for the common good.

The speaker declared that a chamber of commerce organized along the lines the American City bureau advocates cannot fail to be effective and he said that the bureau's ideas represent the best that is possible in organized effort.

Judge Samuel in introducing the speaker said that nature had been kind to the people of Jacksonville and Morgan county in the general surroundings here. However, no great fortune is to come to this community from oil wells, gold or mineral development and so whatever increases or advances come must be thru specific effort. Then Judge Samuel went on to say that a city is just like a banking institution, that citizens as stockholders must put something into that bank if they expect to draw from it.

## The Need of Today

After expressing his pleasure in coming to Jacksonville, Mr. Bready said that the greatest need of the present day is a deepened responsibility to the community and to the church. He said that it is well enough to talk about the "city four square" of the future but that as a minister and citizen he counted it his duty to make every effort to establish such a city here on earth. He suggested that the essential thing for establishing the four square city—one that meets its obligations to its citizens, prospers in spiritual and material ways—is

First, localization.

Second, fraternalization.

Third, organization.

Fourth, visualization.

## Fraternity Gets Results

Then the chamber minister told some of the experiences of the people of Pontiac. Members of the chamber of commerce meet at a daily luncheon where affairs not only relating to business but the general welfare of the city are freely discussed. A committee on fraternity is maintained and friendly greetings are extended in a personal way to every person who becomes a resident of the city. The names are passed on to the lodges or the church with which the new resident has been affiliated and in various ways he is made to feel very much at home.

In the Pontiac chamber of commerce the people are brought together in a way that cannot happen in the lodges or churches. There are no sectarian or class lines. The spirit of the people is indicated by the action of the Ministerial union. Protestants and Catholics alike belong. While 75 per cent of the members are Protestants, today the president and presiding officer is a Catholic priest.

The chamber of commerce of modern plans stands for all good things. "A city can lose its soul as well as an individual," said the speaker. "You want more people but you also want higher ideals and a greater willingness to serve. I believe that the fallacy of preparing men to die has prevailed too long, that the important thing is preparing people to live. The real religion of today applies to the here and now and that is why I am doing all that I can for the establishment of the four square city here on earth."

## CORONER'S JURY RETURNED VERDICT IN CLARK CASE

The jury that Coroner Rose empaneled to inquire into the death of George S. Clark returned a verdict that death was due to uraemic poisoning with bright's disease as a contributing cause. The witnesses examined were Farnk Bollis, section foreman of the C. & A., William Williams, a teamster, B. B. Black, section hand; Dr. C. C. Cochran and Dr. A. H. Kennibrow.

The testimony showed that the deceased had stopped at the Williams home on Washington street Saturday afternoon about 4 o'clock, and complaining of illness went in to lie down on a bed. He evidently did not realize

the seriousness of his condition and was unwilling to have his family notified. However, Mrs. Clark found him there about 8 o'clock and had him removed to his home on Clay avenue.

The deceased had complained for several days of not feeling well, and was compelled once or twice while at work to lie down near the railroad track.

The jury included J. W. Muse, foreman, James Matthews, Romeo Bynum, S. Spencer, William Briscoe and C. L. Starks, clerk.

Col. Edward Yates and William Mumford of Pike county were visitors in Jacksonville yesterday and called upon a number of their friends.

## ALTAR SOCIETY OF ALEXANDER CHURCH MET

Alexander, May 12.—The monthly meeting of the Altar society of the Alexander Catholic church was held in the basement of the church Thursday afternoon. The hostesses were Mrs. Joseph Bergschneider, Mrs. John Kumble, Mrs. William Berchold, Miss Teresa Berchold and Miss Mary Weiser.

At the business session various matters of importance were discussed. Then came a brief social hour, when the hostesses served refreshments including coffee, sandwiches and pie. The society will meet again on Thursday, June 2.

## New Home Sanitarium

Incorporated

A Private Surgical Hospital

Thru its Public Health Department Says:—

### Finding the Truth

"By the TRUTH ye are saved." Doctor, what is the matter with me? What is the cause of my sickness? Should be the object of your consulting a physician always. There is a CAUSE for every pain—for every improper action of a part—organ or system of the body. There is a cause for every DEATH. 75 per cent of sick people are treated under mistaken DIAGNOSES. That means that two thirds of DEATHS are prematurely brought on. To think of the thousands needlessly dying and many times more needlessly suffering and dragging thru life daily indelibly impresses upon us the great importance of "SEEKING THE CAUSE."

Money paid for guess work or for treatment without a proper diagnosis is money wasted. A proper EXAMINATION is the only way "to find the golden wedge." It costs more, 'tis true; it is worth more. You get about all you pay for in this world. If you seek "cheap service—guess work" you get cheap values. "Cheap Results."

No one knows better than the Doctor the value of his SERVICES; he charges accordingly. Cheap Service, like cheap goods produce cheap results, disappointments and waste. To better illustrate what we mean we will state one case from our records. Mrs. — came to the NEW HOME

SANITARIUM recently and said, "I came here to find out what is the matter with me, the cause of my suffering so long." Her history revealed the facts—that she had been suffering slow death for 21 years, had received treatment from 18 doctors, but had never once been EXAMINED. After going thru the route she was relieved of 33 large and small stones from the gall bladder. Now health and happiness have taken place of suffering and disappointment. (These the greatest curses of mankind.) Cheap service and guess work like the vain searches of Ponce de Leon in his efforts to find the "fountain of immortal youth" proved in reality a MYTH.

At the NEW HOME SANITARIUM is found all necessary means of finding the TRUTH. The real diagnoses of your ailment, getting at the CAUSE is first consideration. All else is easy.

#### HOMES WANTED

A pathetic case at Beardstown is reported of two motherless little boys aged respectively 9 to 11 years. Their mother was burned to death last winter and the father is unable to keep the children and would like to find a home and adoption for them in some good family or families. Anyone wishing to look into the matter communicate with Col. J. H. Turner, 111 East Main street, Beardstown.

Mrs. Nancy Westcott, of Syracuse, N. Y., who declares Tanlac is the greatest medicine on earth. Says it built her up to where she is just brimful of new life and energy.

"I just think Tanlac is the greatest medicine on earth and I can never praise it enough for what it's done for me. "For two years I was in a badly run-down condition. I had no appetite, and after every meal I would be in awful distress from indigestion and bloating. My nerves were on edge, and I could never get a good night's sleep. I felt tired and worn out all the time, was losing weight, and many times I was so weak I couldn't look after my household. I just felt miserable."

"Tancal helped one of my friends so much that I began taking it and it has certainly built me up into splendid health. My appetite is so big I can hardly get enough to eat now, and I am never troubled a particle with bloating or indigestion. My nerves are as steady as clockwork, and I sleep like a child at night. I have recovered my strength and am just brimful of new life and energy. In fact, I feel better than I have in years. My gratitude towards Tanlac is unbounded."

The above statement was recently made by Mrs. Nancy Westcott, 121 Market St., Syracuse, N. Y.—Adv.

## Come to the Cooking Class

More Heat Less Care

Thursday, Friday and Saturday afternoon at two o'clock a special cooking demonstration will be given in our store—FREE.

At this class various dishes will be cooked to show the many women who will attend how easily they can get excellent results with a Florence Oil

Cook Stove. Samples of the food will be served to those who attend.

The domestic science demonstrator in charge will show how simply the kerosene-burning Florence works, and will gladly answer questions about it. Come. Ask questions. Learn how to save time, work, fuel, and food.

**PITTSBURGH WINS FROM BOSTON**

Boston, May 12.—Pittsburgh made 6 of its 7 hits count in defeating Boston 3 to 1 today. Glazner pitched his first game here and kept the Braves' hits well scattered. He knocked in the winning run in the eighth with a single to center. Score: Pittsburgh 6; Boston 1. 010 000 011—3 7 25 Boston. 010 000 000—1 8 0 Glazner and Schmidt; Watson, Oeschger and O'Neill, Gibson.

George Kelly of the Giants made his eighth home run Thursday in the first inning of the game with St. Louis nationals with the bases full.

## FROM COLLEGE CAMPUS TO MAJOR LEAGUE

Cleveland, Ma.—From the college campus direct to the major leagues without previously having seen a professional baseball diamond is the unique record of J. Riggs Stephenson, second baseman with the world's champion Cleveland Americans.

Stephenson probably is attracting as much attention as any player in the big leagues. His play around the keystone sack equals that of a veteran. In his first seven games with the Indians he made 15 hits out of 26 times at bat, an average of .577 and accepted 28 fielding chances perfectly.

When Bill Wambgsann, unassisted triple play hero of the world's series last October, sustained a fractured arm during the trip north from the spring training camp at Dallas, Manager Speaker filled the gap with Harry Lunte, utility infielder. A few days later Lunte wrenched his ankle and Speaker found himself without a second baseman.

Stephenson, who signed with the Indians last spring, was attending the University of Alabama. He was to have joined the team when he finished his studies in June. Speaker explained the circumstances to the university officials and his request that Stephenson be excused until May was granted.

A week before his leave of absence expired Stephenson learned that neither Wambgsann nor Lunte would be ready to play by May 1 and he notified Manager Speaker that he had decided to remain with the Indians all season, the college authorities giving him permission to return in the fall to complete his course in engineering. He will receive his degree in February.

## STATE HOSPITAL DEFEATED BROWNS

One of the best games and the hardest fought was played at the Jacksonville hospital grounds Thursday afternoon. May 12th when the State Hospital team defeated Jacksonville Browns by a score of 9 to 4. Justice, pitching for the hospital team, allowing 5 hits, and striking out 12 men was one of the features. Sensational plays of the other members of the team robbed the Browns of several scores. Manager Browne of the Browns had his team fighting hard all the time, but they could not overcome the lead of the hospital team. The game was played before 2500 people. The State Hospital is going to have one of the fastest teams in this section of the state.

Burl May is managing the team. He is an old baseball man. He makes his team fight. The line up for the hospital team was Jackson catcher; Justice, pitcher; Cox, first base; Gant, second base; Clark, short stop; Morrow, third base; King, center field; Martin, left field; Churchwell, right field.

Browns: Duncan, 3b.; Brown, ss.; K. Wheeler, 1b.; Weir, c.; Black, cf.; C. Wheeler, 2b.; Angulo, p.; Balu, lf.; Norton, rf.

Umpire—Dick Wheeler.

## HARLEY RECEIVES MANY OFFERS TO COACH

Columbus, O.—Offers to coach football teams have been rolling in on "Chick" Harley the Ohio State university gridiron star. The latest bid is from the Indianapolis, Ia., college which offered Harley \$4,000 to assume the athletic directorship. Harley was assistant to coach Wilce at Ohio State last season and may decide to remain for the 1921 season.

## MANY REQUESTS FOR RESERVATIONS

Chicago.—All of the star athletes from the southern intercollegiate conference will compete in the National Intercollegiate track field championship meet to be held at the University of Chicago, June 18, according to latest word from the south.

Several men from the colleges that comprise this conference are doing creditable work this spring. Clare of Kentucky has run the low hurdles in .25. Coughlin of Sewanee the 440 in .50, and Helm of Louisiana the 100 in .10. Skidmore of Sewanee put the 16-pound shot 42 feet 10 1/2 inches in the meet with Georgia Tech and Melchior of Georgia Tech threw the javelin 169 feet.

The Southwest Conference schools will send the best men from Texas to compete in Chicago. Lindsey of Rice institute with a record of 9.4-5 seconds will make a worthy competitor for Paddock in the dashes. Lindsey, in addition to his work on the track, is credited with a shot put record of 42 feet, 10 inches. Mahan, of Texas A. and M., recently threw the javelin 187 feet 10 inches; and Weir, of Texas A. and M. and Goss of Rice institute, ran the 220 in .22.

## MANY STARS TO COMPETE IN MEET

New York, May 11.—Although the opening of the public sale of seats for the Dempsey-Carpenter championship contest in Jersey City on July 2, will not begin for several days, the requests for reservations assure a record breaking attendance, according to the promoters. Official diagram of the arena distributed today, indicate that the boxing amphitheater will seat 50,000 or more spectators. The plans provide for 35 rows of 350 seats and more than 100 mezzanine boxes which, it is understood will be occupied principally by women. Back of these boxes are to be erected four rows of 340 seats and a similar number of 335 rows. These in turn are followed by 30 rows of 25 seats; three rows of 20; 21 rows of 15; 25 rows of 10, and 11 rows of 6.50 seats.

As the arena is to be an octagonally shaped structure, with a radius of more than 200 feet, the number of seats included in each of these eight sides rows may be approximately estimated. In the 350 section alone close to 4,000 seats already have been reserved. Carpenter and his party are expected to arrive here on Sunday, on the steamer La Savoie and promoter Rickard is arranging for a special reception committee to meet them.

## ANOTHER HOME RUN FOR BABE RUTH

Detroit, May 12.—Babe Ruth made his tenth home run of the season in the first inning of today's game against Detroit Americans, then won the game in the ninth with a triple that scored two runs. The score was 11 to 10 Detroit took the lead in the sixth by means of a rally that netted five runs. Blue and Sargent obtained hits that scored runs while attempting to dodge wild pitches by Quinn. Score:

N. York 203 202 002—11 14 1

Detroit 300 115 000—10 10 0

Sheehan, Collins; Quinn, Ferguson, Mays and Schang; Dauss, Holling, Leonard and Bassler.

### A FEW THINGS ABOUT THE TERRITORY OF HAWAII

A very interesting paper on "Hawaii" written by Mrs. M. E. Churchill of Fairmont, Cal., was recently read before the College Hill club. Mrs. Churchill is the wife of Prof. M. E. Churchill, for a number of years a member of the faculty of Illinois college. He is now professor in Pomona college, California. Prof. and Mrs. Churchill made an extended stay in Hawaii.

The Hawaii Islands are reached after a voyage of 2100 miles, six days out on the ocean—and the first land to be seen after one leaves San Francisco is a great event.

The large pier is filled with people of all nationalities, many in their native dress. The Hawaiian band, a splendid looking lot of big fellows in their white uniforms, always plays really fine music very well, the loise—venders—big Hawaiian women with their arms full—are offering for sale the loise or wreaths made of all kinds of things, flowers, paper, beads or shells. Every one expects to be down to the pier to welcome their friends whether they be visitors or returning towns people. The shouting and waving of handkerchiefs as those on board recognize and are recognized by those on the shore, as the great boat comes slowly up to the pier—is really very exciting.

A lei is placed around the neck of each passenger as they step off the boat by their friends as a token of welcome. We were met by some Pomona College graduates and taken at once to their beautiful home. Houses in Honolulu are quite as scarce as they were on the mainland but these friends had rented one for us so that in a few days we were in our own rented house.

It was on the side of Punch-bowl—Punchbowl is the extinct crater which rises abruptly from the city. We were three blocks from the electric street cars. The car service in Honolulu is very good, all open cars, fare five cents, including transfers to any part of the city. They have fine roads and lots of autos—they say one for every ten people. Many coming from the mainland bring their own autos. As we went thru the city we kept exclaiming over the gorgeous flowering trees which lined the streets. These trees were aglow with the most brilliant flowers—the bright red folowers of the royal Poinciana—the yellow of the "Golden Shower" or the pink of the "Pink Shower" or the "Monkey Pod."

Maybe because the first white settlers (the early missionaries) who came to the Island were from New England—they built around their places stone walls—or maybe they had to pick up the stones to find dirt to plant things. Let the reason be as it may, all the houses (except the very newest) are today surrounded with a stone wall or a hedge—walls of reddish brown lava stone which soon becomes covered with silver gray and green lichens—or hedges of hibiscus whose large showy blossoms on their background of brilliant green give the impression of perpetual decoration. The white hibiscus is native of the Islands—it has been increased and changed so that now they claim two thousand varieties—all colors and shades—a beautiful flower. Those stone walls really become part of the landscape. They just creep in and mingle with the coloring—you learned to love them. There is very little building material on the Islands. The reddish brown lava stone is too porous, water goes thru it as it does a flower pot. There is a gray lava which I supposed is hardened under pressure and is very good.

A number of fine public buildings are built of that. The native Hawaiian church built in 1836 was built of coral blocks cut from the reefs. It is a large church, will seat 1,000 people. Services are held here all the time in the Hawaiian language. Here is where the old kings used to go to church. Cement, nails, timbers, glass, etc., must be brought from the mainland. From our house we looked right out over the city to the wonderful ocean. Below is the green of the trees, for Honolulu is called a "City of Trees," only the roofs of the taller buildings show—you wonder why these roofs should impress you as odd—and then discover that there are no chimneys anywhere, cooking is done by gas or oil or over an open fire. Beyond the trees was the light green of the rice and taro fields—out of which rising in a perfectly bare steep brown sides in the extinct crater of Diamond Head. Within its rim is hidden the strongest fortification of all the world—it is called the Gibraltar of the Pacific. To the left is Fort Ruger, to the right Fort De Russy. From these three forts, we have watched the rays of the search lights at night.

We could see the Moana hotel, on of the largest at the foot of Diamond Head and on the ocean beach called Waikiki (Wye-ke-ke) is the most famous bathing beach on the Island of Oahu. Between the coral reef and the shore is shallow water and a stream pouring into the sea keeps the sea weed and coral from spoiling the bathing if you go in at night or at noon the water is always about 70 degrees, one never feels a chill. From our house you can see the light green which means shallow water near the shore, then the white caps of the surf as the waves break on the reef and roll in—beyond is the dark blue of the deep, deep ocean. We watched as Uncle Sam's fleet of battle ships came round Diamond Head and steamed slowly all along the

shore into the harbor. We saw the U. S. airplanes go out to meet them and drop leis on their decks—we heard the welcoming salute from Fort Armstrong near the mouth of the harbor. We saw an airplane fly at night, with its great headlights, throwing red, green and white star shells. Looking to the left from our house we saw below in the canon the U. S. experimental station—their land runs way up the side to the top of Mt. Tantalus.

We loved to watch the beautiful clouds gather above the top of these mountains and as they are swept by the winds come down first one canon and then another, bringing light showers sometimes a little way and then again reaching the ocean. Rainbow showers they call them—no one is disturbed—no one carries an umbrella unless a Malihini—a newcomer—and the rainbows—not only arches drawn by rule—but patches of color springing out of the door yard in air so clear that only your reason tells you it was full of moisture.

We learned to watch for them any time of day, morning, noon or afternoon and once we saw a lunar rainbow. Perhaps you thought it rained all the time. You see there are eight inhabited Islands that compose the Territory of Hawaii—they differ greatly from each other—Oahu on which is Honolulu, the capital, has only a rainfall of from 10 to 30 inches a year, while the largest Island of the group on which is the active volcano has 300 a year and a much talked of day in which they had 25 inches in hours.

One day we went on the railroad to the other side of the Islands. The railroad, a little narrow gauge has 90 miles of track—first and second class cars and is used to carry people and freight to and from the plantations.

As we left the city we passed a number of pineapple canneries. One of these had been taken thru, had seen them making the tins and putting up over 1000 tons of pineapples in a day. They told us that 3000 people were working in that factory which covers 9 1/2 acres. The factory provides every woman who works in the fruit with a clean apron, cap and rubber gloves every morning. The fruit is never touched by bare hands.

No other country in the world ever approaches Hawaii, in either the quantity or quality of its "canned pine apples." Fresh pineapples are not so very different from the canned, only they are more juicy and tender—as the hot syrup toughens the fiber.

Passing the canneries we went thru the sugar cane fields—the tall pink pampas—like plumes are the blossoms of the sugar cane. The cane is cut by hand, stripped of its leaves and piled into the little open cars which are drawn thru the fields to the factory by a dummy engine. The ground in a cane field is all in ditches as cane on this Island has to be irrigated so these trains run on portable tracks which are put together like long ladders and can be moved to different parts of the fields.

### ASHLAND MISSIONARY CIRCLE MET TUESDAY

Miss Grace Bailey Hostess to Circle Members—Other News Items of Interest From Ashland.

Ashland, Ill., May 12.—The Missionary circle of the Christian church met Tuesday evening at the home of Miss Grace Bailey. Miss May Kendall being the leader. The topic was Africa, and very interesting talks were given by Mildred and Bernice Cowan, Lula Bruinback, Edith Yancy and Lorena, Eula and Glenna Bailey. After the program delicious refreshments were served by the hostess, after which a social time was had by all.

Rev. and Mrs. Beades of Quincy are here visiting their son, Dr. R. O. Beades and family. E. R. Clemons is having his home on Editor street remodeled. Mrs. Wm. Minters is in the St. John's hospital at Springfield where she will undergo an operation.

Mr. and Mrs. Willis Deweese are the happy parents of a baby girl born Friday, May 6, 1921. They have named the little daughter Betty Lou.

The Junior class of girls pleasantly surprised their Sunday school teacher, Mrs. Wm. Ray, Tuesday evening, it being her birthday. They brought nice refreshments and presented her with a pyrex baking dish.

Geo. W. Bailey and family and granddaughters, Jesse Eulene and Maxine Wyatt and Glenna Bailey spent Saturday and Sunday in Jacksonville, visiting at the home of Mrs. Ada Shortridge.

The Ladies' Aid society of the M. E. church will give a home talent play entitled "The Hoodoo," at the Lyric theater to night.

Misses Marguerite Campbell, Pearl Shelton, Rachel Gist and Lottie Beggs of Springfield visited with home folks Sunday.

Mrs. Caroline Awalt and family of Pleasant Plains, Miss Sophronia Young of Chatham and Dr. McLaughlin of this city were Sunday guests of Mr. and Mrs. Henry Awalt.

Homer Lewis purchased the Rane's meat market last week and J. H. Douglas the soda fountain and moved it into the McCready's grocery store.

James Taylor is engaged with the Springfield orchestra for the season of 1921.

### BIG MILITARY LAUNDRY

SOON TO BE ESTABLISHED  
New York City and Brooklyn and the vicinity are soon to have a big military laundry, to be established at the Brooklyn base of the Quartermaster Corps and operated with other salvage activities of the service. Washing will be done free for all the enlisted men on duty in the New York district, and also all the laundry work for army transports which dock there. As soon as the new plant has been completed, the laundry at Hoboken, N. J., now operated by the government in a leased building, will be discontinued.

This is in line with the new order giving free laundry service to all enlisted men, and at a cost to officers, which will effect a saving of about \$1,000,000 a year in army laundry bills for the government. It is estimated that it cost \$2 a month to keep a soldier clean.

A recommendation has also been made to the secretary of war to purchase the post exchange laundry at Fort Slocum, New York, for \$8,486. If taken over, this laundry will be operated as a Quartermaster Corps plant and considerably enlarged to take care of laundry work from neighboring posts in the vicinity of New York.

Before you buy a can of Calumet you are certain of the greatest baking powder value—of the best baking results.

Because there are so many definite proofs of its superiority—of its purity and reliability.

It received highest awards at World's Pure Food Exposition, Chicago; Paris Exposition, Paris, France. PROOF that it is the best baking powder in the estimation of expert judges of baking powder quality.

For thirty years it has been the favorite of millions of housewives. PROOF that it gives those millions the best of satisfaction.

It contains only such ingredients as have been officially approved by U. S. Food Authorities. PROOF of its strict purity and excellence of materials.

It is made in the largest and most modern and sanitary baking powder factories in the world. PROOF that it must be better baking powder than one made under less favorable conditions.

You save when you buy it—moderate price. You save when you use it—possesses more than ordinary leavening strength—therefore you use less.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

### Calumet Chocolate Cake

#### Recipe

½ cup butter, ¾ cup sugar, 3 teaspoons Calumet Baking Powder, ½ teaspoon salt, 2 cups sifted flour, 1 cup milk, 2 eggs. Then mix in the regular way.

## Fordson

For thirty-five years Henry Ford, a farmer's boy, has been working on the problem of a successful tractor for the farm, and for the past fourteen years has devoted much time and a vast amount of money to the development of the present Fordson Tractor. Today that Tractor is in use on nearly 200,000 farms and if you have any doubt as to the satisfaction it gives to those who are using it, call in and get the booklet, just issued by the Ford Motor Company, and called "The Tractor at Work" and read the testimony which is there given by the multitude of owners of Fordson Tractors. No evidence can be more conclusive than that of the man who actually knows by personal experience and this is the line of testimony carried in this little booklet. There is no cost for this booklet. If you cannot call for it, write, drop us a postal, and we will mail it to you without charge. It is so valuable you ought to have it because it is the open door through which the farmer will pass from the hard working drudge to the comparative comfort of the manufacturer. The Fordson makes it possible for the farmer to plan and direct, while the machine will do the work. It presents the widest latitude for the farmer to exercise his brain power and plan how he can get the most from the soil, knowing that the Tractor will do the hard work, do it better, do it quicker, and therefore do it more profitably. This means not alone in the cultivation of the soil, in the harvesting of the crops, but in a hundred and one different demands that are made for labor, cutting of ensilage and the filling of the silo; cutting of wood; operation of the washing machine; in the lighting of the house with electricity; supplying the house with running water; bringing to the farmer's wife and daughters the conveniences of the city, relieving them of much of the hard, unpleasant part of housework.

### HIGH SCHOOL NOTES

Great interest is being taken by the students in the enrollment for next year's work. The high school office has been a very busy place during the past few days. Many students are seeking the advice of the teachers as to their work next year and are giving much serious thought to the selection of subjects and courses. Principal Shafer feels very gratified that so many students have responded to the suggestion that they think seriously about their school work.

A representative of the Jacksonville Chamber of Commerce will talk to the high school students this afternoon in assembly. The students are to be urged to take an active interest in this movement for a "Better Jacksonville" and the speaker will put some vital questions before the student body.

Maline hats in black, white and light colors, hair braid hats, sport hats, banded sailors and children's hats now half price. THE CARROLL MILLINERY PARLORS

THE BROOKLYN REVIVAL. The interest in the special evangelical services at Brooklyn is deepening and widening at each successive service. The people of this vicinity are thinking, reading and praying over the subject of personal salvation and personal evangelism. Many have made prayer lists of their friends and have promised to pray and work for their conversion. The singing, under the leadership of Mrs. Codrington is an inspiration.

Wednesday night, Trula Fisher, a member of the Junior Choir, sang as a solo "In the Garden" and was cheered by the audience. The congregation assisted in reading the scripture lesson by quoting many appropriate passages of scripture. The pastor preached on "The Great Physician" and spoke of the paralyzing effects of sin and the need of resurrection, team work and faith in evangelism. The subject for Thursday evening was "The Spirit of Wine vs. the Spirit of God."

H. H. and Jerry DeGrate of Chapin were transacting business in the city yesterday. The West Side Art club will meet this afternoon at 2:30 at the home of Mrs. Nellie Douglas. All members are urged to be present.

### H. S. SENIOR PLAY WILL BE AT OPERA HOUSE

"Mice and Men" the play which the high school seniors are to present this year will be given at the opera house Monday, May 23rd. The original plan was to give the play in the high school gym but Miss Asger, who is coaching the play felt that it would lose much of its charm if adapted to the high school stage. There are many scenes which it would be impossible to represent on a small stage and as the play is a really worth while production the high school authorities decided to give it at the opera house.

The students are busy every night with rehearsals and are putting their best efforts into the play. "Mice and Men" promises to be one of the finest senior plays ever presented by the high school.

### VISITING FRIENDS HERE

Mrs. James McBride of Thoreau, New Mexico is the guest of Mrs. Ernest Strawn, of 726 South Prairie street. Mrs. McBride is enroute to Fullerton, California where she will spend some time. She was formerly Miss Mary McCracken of this city.

## TAKES EXCEPTION TO LANSING STATEMENT

Viscount Makino, Japanese Peace Delegate Says Japan Did Not Force President Wilson's Hand

Tokio—Viscount Makino, Japanese delegate to the peace conference, takes exception to statements of Forman Secretary of State Lansing, made in the ex-secretary's recent back concerning the attitude of Japan at the conference.

As quoted in the Asahi Shimbun, Viscount Makino, commenting on cabled resumes of the book, says that Japan did not force President Wilson's hand, regarding Shantung by threatening to bolt the conference, as did Italy. "There were wild rumors abroad in Paris to that effect at the time," he says, "these threats being to the effect that Japan would not join the League of Nations, but these were mere rumors and Japan's real actions had nothing to do with them."

Mr. Lansing's statements that Japan attempted to force adoption of the racial equality clause by announcing a decision to refuse to sign the peace treaty is also denied by the Japanese peace delegate. The delegates of all the powers represented, says Viscount Makino, had no other idea than to secure the peace of the world, and anything in the nature of a threat from anyone could not be tolerated.

"The question regarding Shantung and that regarding racial equality cannot be treated in the same light," he says. "The statement made by Mr. Lansing in this connection is probably only his own misconception, as he was not present at the meeting at which the final decision regarding Shantung was arrived at."

Twice interviewed President Wilson in this matter between April 21 and April 30, and, after the matter had twice been submitted to the Four Power conference the agreement regarding Shantung was arranged.

Mr. Lansing not being the highest representative of America, did not take part in these meetings and his statements regarding Shantung are only his own ideas of what took place."

Viscount Makino defines flatly that he and Count Chinda had an interview with Mr. Lansing, while the Viscount denies any knowledge of any member of the Japanese delegation ever hinting at a possible rupture between Japan and America in event of the Japanese demands being rejected, as stated in the Lansing memoirs.

Many heated discussions took place in the conference, says the Viscount, with each delegation attempting to carry its own points, but no delegation ever descended to the level of making threats. Mr. Lloyd George and Mr. Clemenceau are not the kind of men who would be influenced by threats, anyway.

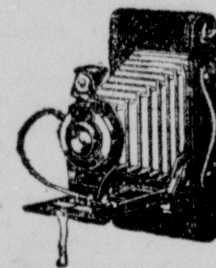

Viscount Makino is quoted in conclusion as pointing out that he has no idea of issuing any formal refutation of Mr. Lansing's statement but if anything calculated really to damage American-Japanese friendship should be found in the Lansing Memoirs, he may find it necessary to make some statement to clarify Japan's position at Paris.

## It is well to hear good music. It is better to play it.

Even though you do not know one note from another you can enjoy the pleasurable sensation of being a musician.

THE

## Manualo

The Player-Piano That is All But Human  
The Instrument You Were Born to Play

requires only the application of the musical feeling that is born in all of us to play for you as satisfactorily and sympathetically as it plays for the artist who performs by hand. Your musical wishes instinctively expressed to its pedals make it respond as fully as if you were playing upon its keys. Through the Manualo you enjoy the sensation of really playing a musical instrument. You never think that you are operating a machine.

The Manualo satisfies everybody who plays it. Every member of your family would enjoy it immensely from the youngest who can reach the pedals to those who ordinarily might think themselves too old to play a musical instrument. Come in and try it and bring some of your folks to try it too.

Whether you want an inexpensive instrument or the finest to be had there is a Manualo to meet your requirements. We sell these four famous brands, all made by the House of Baldwin—the Baldwin Manualo, the Ellington Manualo, the Hamilton Manualo, the Howard Manualo—and as we are direct factory distributors, we can give you values that positively are unrivaled.
